

## **The Visit to the Morro Fortress**

The Morro is a national monument.

We are on the bus. The name of the driver is Manuel. It's 11 am. We are 18 persons on the bus, plus Manuel. We are in Playa, in Havana, and we will go to the Morro.

We arrived at the Morro at 11:35 am.

The Morro was a military fortress. It was used to protect and identify pirate ships.

There is a chapel, there are cannons to protect the city from pirate ships.

We went up to the lighthouse.

We had a guide and she asked us questions and gave explanations about the history of the Morro. We had a picnic at lunch time, and then we left at 1pm.

We enjoyed visiting the Morro. We learned a lot about the fortress.
